

NOTICE

TO THE GENERAL PUBLIC of CORTARO-MARANA IRRIGATION DISTRICT/CORTARO WATER USERS' ASSOCIATION LANDOWNERS AND IRRIGATORS OF CROPS

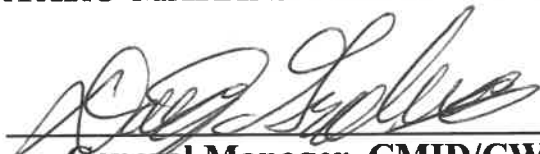

CONCERNING – District use of AQUATIC HERBICIDES (Chemicals to control aquatic plant growth in water) and Restrictions for CROPS and FISH:

Aquatic herbicides are regularly applied to control aquatic vegetation in District irrigation systems. These herbicides may be harmful to any aquatic plant and animal life (including fish) that may be present in the water.

The District does not warrant or guarantee the quality of its irrigation water, nor does the District warrant that any irrigation water provided will be free from aquatic herbicides, effluent, biological or chemical agents, or unregulated compounds. Use of District water to irrigate FOODS CONSUMED RAW, OR TO RAISE FISH OR OTHER AQUATIC LIFE, is done so at the sole risk of District shareholders, members/landowners, their agents, employees, tenants, or lessees and is against the advice of the District. Water users must accept the delivery of District water in “AS IS” condition and with knowledge that aquatic herbicides are utilized by the District.

**DISTRICT WATER IS NOT DESIGNATED FOR HUMAN CONSUMPTION
OR POTABLE USES.**
